

## **Hopi Arsenic Mitigation Information Facilitation Meeting**

**TIME:** 10:00 AM Thursday April 27, 2017

**PLACE:** Lower Sipaulovi Village Multi-Purpose Room

**Objective:** Report current regulatory status, HAMP Progress and USDA Preliminary Evaluation Report Review Comments. Facilitate Information Exchange between Hopi arsenic effected water systems, HDWR, HPUA and HAMP stakeholders.

### **Goals:**

- A) Identify current perspectives and potential solutions related to arsenic in drinking water.
- B) Develop a preliminary list of potential arsenic mitigation alternatives.
- C) Facilitate an outline for a DRAFT Hopi Arsenic Mitigation Work Plan.
- D) Recognize regulatory and engineering milestones of implementing an arsenic solution.
- E) Propose HPUA, HDWR and Village responsibilities.

### **AGENDA:**

**10:00 Introduction**

**10:10 Regulatory Update by Lionel Puhuyesva**

**10:20 HAMP PER Update by Tim Bodell**

**10:30 Facilitate open discussion of potential arsenic mitigation alternatives by water system operators, managers and stake holders.**

**11:00 Identify criteria for ranking and screening of potential mitigation alternatives.**

**11:30 Listing of activities and tasks to be included in a DRAFT work plan for water system review and comment.**

**11:45 Proposed Hopi inter-organizational roles, responsibilities and milestones.**

**12:00 Adjourn**
